New Teachers Join CA Faculty

- by Emily Fellows

Over the course of the summer, two new teachers were hired to replace Kristin Brooks and Ken Hastings, who retired at the end of the last school year. Ryan Patterson and Sarah Slater have decided to make a new home at Colebrook Academy.

Ryan (Chuck) Patterson is the new Earth Science and Robotics teacher. Before becoming a new member of the CA staff, he worked for six years at White Mountains Regional High School teaching Earth Science, Environmental Science, and classes in Science, Technology, Engineering, and Mathematics (STEM). He decided to return to the Academy because he wanted to teach at the high school he graduated from.

Mr. Patterson also enjoys hiking, and going to the gym, while in the winter, snowshoeing is a popular choice.

Mr. Patterson isn't the only new member of the faculty at CA, Sarah Slater is the new Earth Science, Foods, and, her main subject, Biology teacher. Before coming to work at Colebrook Academy, she worked in Montréal, Canada teaching doctors to get their recertification in basic biology.

Besides teaching, Ms. Slater likes a multitude of other activities. Some of her hobbies include hiking, gardening, working out, and cooking. She is also the assistant coach for the girls varsity soccer team. Ms. Slater has said that she is very excited to be in Colebrook and meet the student body.

Old and New Programs at CA

-by Amanda Leslie

Two new programs that will help our school and our community are starting this fall. Now that summer is over and school is back in session, students will be completing requirements for the Summer Reading Program. Having been given several options for what to read over the summer, students will now have the choice of prompts to respond to in regard to their reading.

A new program will see the three area high schools, Canaan, Colebrook and Pittsburg, collaborate to offer more opportunities for students in all three towns.

Starting this semester, students in Canaan and Pittsburg will have the option to take some classes at CA. With that, CA students will be able to take classes at Canaan and Pittsburg.

The program is being offered for the first semester for this school year, with the eventual goal of making it a yearlong program.

Key Clubbers Prepare For Annual Conference

- by Libby Bille

On the weekend of September 15, members of the Colebrook Academy Key Club will be attending Key Leader. This annual event, which takes place at Calumet Camp in Freedom, NH, helps to build leadership skills and meaningful friendships for those who attend. Students will be leaving the Academy on Friday, Sept. 15 and returning on Sunday Sept. 17.

New Classes Available at Colebrook Academy

-by Cameron Frizzell

Colebrook Academy began a new program this year to include more classes to interest students. An additional goal was to create classes that would give students more skills for after high school.

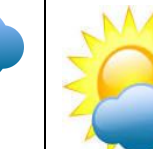

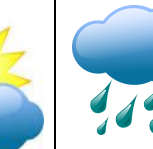

The new classes this year take place during the first two blocks of the day. These include Current Events, Investments, Gardening, Sociology, Robotics, Math in Art, History of Math, and Computer and Design.

In addition to the new classes being offered at Colebrook Academy, there is also the new program to allow students in Colebrook to take some classes at Canaan and Pittsburg that are not offered at the Academy (*see article "Old and New," at left*).

Homecoming Dance

The Colebrook Academy seniors will hosting this year's Homecoming Dance. It will be held at the Colebrook Elementary School Cafeteria on Friday September 29 at 7:00p.m.
